Art Unit: 1774

Claims 1, 6-12, 15 and 17 are rejected under 35 USC 102 (b) as being anticipated by the patent to Kudo et al. for the reasons of record.

Applicants elected to prosecute article claims, not process of use claims. As noted earlier, their arguments with respect to the patentability of their non-elected invention are not dispositive of the issue of the patentability of their elected article claims. Kudo et al. teach an article comprising all of their claimed materials. Consequently, it is inherent that the Kudo et al. functions in the manner claimed by applicants.

Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over the patent to Kudo et al. in view of the patent to Kiyohara et al. (USP 4,877,819).

The photographic film of Kudo et al. is preferably polyester. Kiyohara et al. teach the advantages of adding white pigments to polyester photographic film supports. Use of the Kiyohara et al. white pigments for their concomitant function in the polyester supports of Kudo et al. would have been obvious to one of ordinary skill in this art in the absence of unexpected results.

Claims 13 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1774

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

A handwritten signature in black ink, appearing to read "Bruce Hess", with a stylized flourish at the end.
